

## DESIGN PROJECT SITE UPDATE

Last Updated: November 3, 2010

**Project Name: Anacapa/Carrillo Intersection Traffic Safety Improvements**

### **Contact Information:**

City Project Engineer: Ashleigh Shue  
Phone: (805) 897-2507  
E-mail: [AShue@SantaBarbaraCA.gov](mailto:AShue@SantaBarbaraCA.gov)

### **Project Description:**

The Carrillo/Anacapa intersection has been identified as having among the highest number of motor vehicle involved collisions in the City. According to the Police Department Traffic Collision Records, sixty two (62) collisions were reported at the Carrillo/Anacapa intersection between the period of December 31, 2003 and December 31, 2007.

Given the collision history data and field observations, the proposed improvements consist of new signal poles with mast arms over Carrillo Street to improve signal visibility along Carrillo Street, new pedestrian signal indicators with countdown heads in all directions, and relocation of the traffic control equipment cabinet. In addition, directional ramps will be installed on the northeast and southeast side of Carrillo.

### **Project Progress:**

The project design is at 90% and is tentatively scheduled to go out to bid during the Winter/Spring of 2011.

### **Current Schedule:**

Estimated Construction Start: Spring/Summer 2011

**Existing Conditions at the Anacapa/Carrillo Intersection**
